Dear Colleague,

**Continuing the Discussion and Dialogue for Building Trust and Co-operation**

Greece has been in the forefront of the global migration crisis since it started in 2015.

2015/16 saw the escalation of the global migration crisis, with mass movements of people fleeing the war zones of the Middle East as well as illegal economic immigration from Africa and elsewhere. International terrorism shows every sign of increasing, posing real threats to the free movement of people.

Today, these incidents see the continuation of the migration challenges for the border management and security community, as little sign of peace and security in the Middle East is apparent and porous borders in Africa continue to provide challenges.

**We need to continue the discussion, collaboration and intelligence sharing.**

Supported by the *Ministry of Citizen Protection of Greece, Center for Security Studies (KEMEA), the Organisation for Security & Cooperation in Europe (OSCE), the European Association of Airport and Seaport Police (EAASP), African Union Economic, Social and Cultural Council (AU-ECOSOCC), National Security & Resilience Consortium, International Security Industry Organisation and International Association of CIP Professionals*, the World Border Security Congress is the premier multi-jurisdictional global platform where the border protection policy-makers, management and practitioners together with security industry professionals, convene to discuss the international challenges faced in protecting borders.

The Congress programme, correct at the time of printing, will deliver high level discussions and a series of Closed Agency Only Workshops for promoting greater collaboration on the international challenges.

On behalf of the *Ministry of Citizen Protection of Greece, Center for Security Studies (KEMEA)*, you are cordially invited to Athens, Greece on 24th-26th November 2020 for World Border Security Congress, the premier gathering of border and migration management professionals.

We look forward to welcoming you.

Neil Walker  
Event Director  
World Border Security Congress
Recent years has seen unprecedented crisis on a global scale, from the Middle East warring factions creating mass refugee movements across Europe, illegal economic migrants from Africa and Asia have created increasing challenges for the international border management and security community.

2019/20 is expected to see a continuation of the migration challenges for the border management and security community, as little sign of peace and security in the Middle East is apparent.

International organised criminal gangs and human and drug trafficking groups exploit opportunities and increasingly use the internet and technology to enhance their activities.

Controlling and managing international borders in the 21st Century continues to challenge the border control and immigration agencies around the world. It is generally agreed that in a globalised world borders should be as open as possible, but threats continue to remain in ever evolving circumstances and situations.

Advancements in technology are assisting in the battle to maintain safe and secure international travel. The border security professional still remains the front line against these threats.

The World Border Security Congress is a high level 3 day event that will discuss and debate current and future policies, implementation issues and challenges as well as new and developing technologies that contribute towards safe and secure border and migration management.

We need to continue the discussion, collaboration and intelligence sharing.

The World Border Security Congress is the premier multi-jurisdictional transnational platform where the border protection, management and security industry policy-makers and practitioners convene to discuss the international challenges faced in protecting borders.

You are cordially invited to attend the 2020 World Border Security Congress in Athens, Greece on 24th-26th November.

Current Border Security Challenges:
- Migration Crisis Tests European Consensus and Governance
- Migrants and refugees streaming into Europe from Africa, the Middle East, and South Asia

If you have any queries please contact Neil Walker, Event Director, World Border Security Congress at neilw@world-border-congress.com.

The World Border Security Congress aims to promote collaboration, inter-agency cooperation and information/intelligence sharing amongst border agencies and agencies at the border to better engage and tackle the increasing threats and cross border security challenges that pertain to today’s global environment.

Border agencies and agencies at the border can benefit from the ‘Closed Agency Only Workshops’, hosted by the Ministry of Citizen Protection, Organization for Security & Co-operation in Europe (OSCE) and International Organization for Migration (IOM) with a series of behind closed door discussion and working group opportunities.

This years Closed Agency Only Workshop topics are:

**Wednesday 24th November 2020 - 11.15am - 12.30pm**
**Challenges of Inter-Agency And International Information Sharing**
Chair: Senior Representative, Ministry of Citizen Protection
Legacy information systems, lack of trust, lack of sharing mechanisms, lack of a designated international agency all contribute to a lack of information sharing. Integrated Border Management (IBM) is based on the premise that agencies and the international community need to work together to achieve common aims that benefit all parties. Information sharing becomes increasingly effective as border management agencies gather, collate and share more data, but how is this to be achieved.

**Wednesday 25th November 2020 - 4.15pm - 5.30pm**
**Disrupting Migrant Smuggling and People Trafficking Routes**
Chair: Florian Forster, Head, Immigration and Border Management (IBM), International Organization for Migration (IOM)
Migrant smuggling and human trafficking is one of the largest criminal enterprises in the world. It is a multi-billion dollar criminal business on a global scale. This is because human trafficking is a high profit, low risk enterprise that is also a low priority for most law enforcement agencies, meaning apprehension of perpetrators is low and sentences are often minimal compared that of major crimes. What can be done to disrupt trafficking routes and gangs?

**Thursday 26th November 2020 - 11.15am - 12.30pm**
**Biometrics - next steps**
Chair: Angelisa Corbo, Border Adviser, Organization for Security & Co-operation in Europe (OSCE)
Biometrics are here to stay and are an increasingly valuable tool in making borders secure. But what are the next steps and developments and implementation in biometric technology and how biometrics is lawfully used to help on the border, considering aspects such as GDPR and travel document security.

With the final collapse of the so-called IS Caliphate, returning foreign fighters are a particular challenge for the next few years, but mass migration, transiting terrorists, cross border organised crime, human trafficking, small arms, weapons of mass destruction and drug smuggling will continue to be areas of major concern for the global border community.

7:00pm - 9:00pm  WELCOME RECEPTION (INVITATION ONLY)
**Plenary Session - Continuing Efforts against Foreign Terrorist Fighters, Irregular Migration and Human Trafficking**

How we deal with foreign terrorist fighters, irregular migration and human trafficking are inextricably linked. Because it is through clandestine trafficking networks that foreign fighters will attempt to return to their countries of origin or to other destinations. They may also attempt to return through conventional travel networks by the use of forged or lookalike documents. Or they may hide among genuine refugees as we have already seen. These experienced fighters pose a real threat to their communities. API and PNR are part of the answer but what else can we do to meet this challenge?

The Port of Piraeus is the chief sea port of Piraeus, Greece, situated upon the Saronic Gulf on the western coasts of the Aegean Sea, the largest port in Greece and one of the largest in Europe. With about 18.6 million passengers Piraeus was the busiest passenger port in Europe in 2014. Since its privatization in 2009 the port’s container handling has grown rapidly. According to Lloyd’s list for top 100 container ports in 2015 Piraeus ranked 8th in Europe. Piraeus handled 4.9 million twenty-foot equivalent unit containers (TEU’s) in 2018, an increase of 19,4% compared with 2017 climbing to the number two position of all Mediterranean ports.

Athens International Airport is the largest international airport in Greece, serving the city of Athens and region of Attica. It began operation on March 2001 and is the main base of Aegean Airlines, as well as other smaller Greek airlines. Athens International is currently the 27th-busiest airport in Europe. The airport currently has two terminals, the main terminal and the satellite terminal accessible by an underground link from the main terminal. It is designed to be extended in a modular approach over the ensuing years in order to accommodate increases in air travel. These extensions are planned in a six-phase framework. The first (and current) phase allows the airport to accommodate 26 million passengers per year. In 2004, it was declared European airport of the year.

AU-ECOSOCC WORKSHOP

MIGRATION - CREATING OPPORTUNITIES FOR YOUNG PEOPLE IN AFRICA

Achieving Effective Border Security in Africa through Youth Engagement

TUESDAY 24TH NOVEMBER 9.30AM-12.30PM

The World Border Security Congress provides a powerful platform for heads of government, technocrats and other key stakeholders to review the development process to secure borders, which is affecting migration around the world, particularly in Africa.

We celebrate the progress made and cooperation attained, to share knowledge and explore new avenues for building a better continent for all, and efforts for achieving SDG of the United Nations, and Agenda 2063 of the African Union.

The Congress aptly underscores our collective desire to address developmental challenges in Africa.

In this sense, the AU Summit resonates with the commitment of African Union Economic, Social and Cultural Council to provide advisory role that will engender necessary actions that will address development challenges in Africa.

To this extent, the Social Affairs and Health Cluster Committee in conjunction with Committee on Political Affairs of the AU-ECOSOCC, will be hosting a Workshop on the margins of the Congress to understudy the situation and proffer necessary solutions that will address the issues of Migration in Africa.

Africa is continuously losing its young, vibrant human resources and future through irregular migration, leading through the path of death to Europe and other developed Nations. This has continued to lead to loss of thousands of lives, brain drain and depletion of Africa’s human resources.

The situation has become a global topical issue with Africa at the receiving end. We believe that the time has come for us to look inwards. The Workshop therefore is expected to identify the root causes, share experience with local and international development partners and civil society organizations with a view to curbing irregular migration of African youths and even families to Europe.

The Side Event with the theme “Migration - Creating Opportunities for Young People In Africa” will be highly interactive with Keynote presentations, Panel discussions centered on a meaningful dialogue among participants and stakeholders.
